**Established microbrewery near Grand Rapids, Michigan (“Beer City, USA” 2012-2013) seeks experienced assistant brewer.**

*We’re looking to grow.*

We’re an established, award-winning craft brewery concentrating on Bavarian and other German styles, which have long taken a back seat to the English and Belgian based beers in the craft beer revolution.

Our 6,000 ft<sup>2</sup> new construction facility this fall featuring a 15 Barrel brewhouse, full kitchen and Biergarten. We’re located on Main Street and the Fredrick Meijer White Pine Vertical State Park Trail, just north of Grand Rapids, Michigan, which offers excellent quality of life and tremendous recreational opportunities.

We’re looking for the right assistant brewer to grow together with us in a fun, yet professional “work hard, play hard” atmosphere. We’re seeking to expand on old traditions and create a few new ones of our own. Preferred candidates will have commercial experience and an ability to learn quickly and adapt in a face paced environment. Strong science and quality control background with proficiency in yeast handling, recipe formulation and efficiency practices are a bonus. We’re looking for consistency and attention to detail. This position does involve lifting up to 55+ pounds multiple times daily, and all the physical requirements of any brewing job, an underlying obsession with cleaning and maintenance, and a PASSION for making the best beer possible.
